PRINCE2 and Agile: The perfect fit

As a forward-thinking company with a global reputation for encouraging growth, development and progress, we are constantly monitoring industry trends and how these can shape the evolution of the AXELOS portfolio.

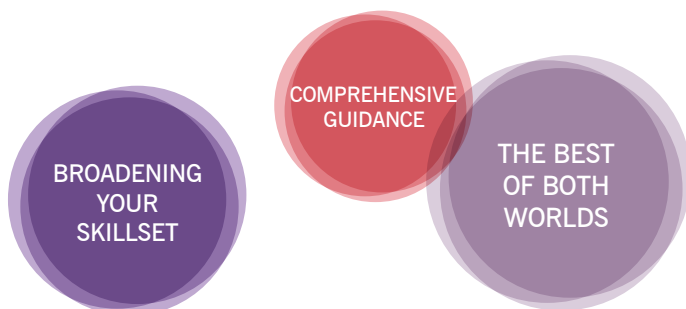

PRINCE2 Agile has been developed as a single-tier qualification. The purpose of the certification is to demonstrate that you can apply and tailor PRINCE2 to an agile scenario. The certification is ideal for Project Managers seeking to extend their knowledge and understanding of Agile, applying its approach within their existing project management environment.

Clear, structured, focused

Developed in response to demand from user communities, PRINCE2 Agile provides structure, governance and control when working with Agile concepts, methods and techniques. Designed to help professionals tailor management controls when working in an agile environment; the new product will help agilists understand PRINCE2 governance requirements clearly and comprehensively, as well as the interface between PRINCE2 and the agile ways of working.

PRINCE2 Agile: Key benefits

- Allows you to focus on both management and delivery
- Lets you scale to your precise requirements
- Gives you control and good governance, flexibility and pragmatism
- Works with any established Agile approach
- A collaboratively-built project that is corporate friendly
- Helps take your projects and working practices to another level of success and achievement.

Key facts

- To sit the certification, you must hold one of the following certifications: PRINCE2 Foundation, Project Management Professional (PMP), Certified Associate in Project Management (CAPM), IPMA Level A-D
- 60% pass rate - 30 marks or more required out of 50 questions
- The length of the exam is two-and-a-half hours' (150 minutes)
- Open book exam (official PRINCE2 Agile guide only)
- Candidates will be asked if they want their names to appear on the published successful candidate register, accessible to employers or potential employers.
