COURSE INTRODUCTION ■

What is PRINCE2?

PRojects IN Controlled Environments is widely recognised as the de facto method for project management. PRINCE2 provides a framework that brings together disciplines and activities that ensure successful project delivery.

The PRINCE2 training event and qualification is aimed at current and aspiring project managers. It is also relevant to other key staff involved in the design, development and delivery of projects, including Project Board members (e.g. Senior Responsible Owners), Team Managers (e.g. Product Delivery Managers), Project Assurance (e.g. Internal Audit), Change specialists and

Project Support and project office staff. Management.

It is a non-proprietary international best practice project management qualification and our event and course material provides comprehensive coverage of all aspects of the PRINCE2 methodology and prepares you for the Foundation and/or Practitioner exams.

PRINCE2 is extensively used in over 150 countries with over 25 000 organisations benefiting from its trusted approach. This event will help those running projects of any size and in any environment to effectively deliver what is required, by appropriately managing costs, timescales, quality, scope, risks and benefits.

PRINCE2 carries you through all the essentials for running a project, from planning to implementation and delivery, to measuring outcomes. Above all, it keeps your attention focused firmly on the business case to ensure that the project delivers and develops in line with your needs.

Outcomes for PRINCE2® Executive Briefing Training

Upon attendance Internal auditors will receive an overall understanding of the benefits of PRINCE2®, and an overview of PRINCE2® Principles, Themes and Processes. Senior staff will receive sufficient information to identify the implications for their organisation of introducing the PRINCE2® methodology. Executives and directors will understand their roles and responsibilities within a Project Environment.

IT IS A FACT! The lack of executive support is one of the **BIGGEST** contributors to project failure, not because of incompetence or lack of commitment but mostly because the Executive do not understand their Roles & Responsibilities within a project and why their input is so vital to the success of a project!

We strongly recommend that all Executives attend an Executive brief on the importance of executive support for Project Management.
